For high school graduation, no more than two full credits may be earned through a combination of concurrent enrollment in college courses, correspondence courses, and all other out-of-district courses. These two credits are limited to courses not offered on-line through HPHS Virtual Academy. If a student takes a course required for graduation through one of these options, the course must be completed prior to the student's last opportunity to enroll in the course at HPHS or the student will be enrolled in the course at HPHS.
